

Mr. Andreas Sperlich acknowledging Mr. Norwin Ferero at "Bee Mountain Apiaries"

During my research, find an alternative cure for the autoimmune disorder Lupus, in my chronically ill daughter Miss Jacky Jane Ferero, I received a “golden tip” that Apitherapy is a possible alternative cure for Lupus. Through acquaintances I came into contact with master beekeeper Andreas Sperlich.

[Mr Andreas Sperlich General Manager of Bee Mountain Apiaries](#), in Lethe, Cops District, Hanover Jamaica, is winner of a PREMIER'S AWARD FOR AGRIFOOD INNOVATION EXCELLENCE.

Mr. Andreas Sperlich greatly admired my work and research to an alternative cure for autoimmune disorder Lupus. Mr. Andreas Sperlich asked me to become a partner in his company Bee Mountain Apiaries. I accepted the generous offer and entered into a partnership agreement with Mr. Andreas Sperlich.

Re: Norwin Gerónimo Ferero

To whom it concerns.

Mr . Norwin Ferero has ten colonies located within the Bee Mountain Apiary, Lethe Hanover, Jamaica. Mr. Norwin Ferero has maintained this location for the past four years. The colonies are registered with the Jamaican Ministry of Agriculture, Apiary Division and are subjected to yearly inspection for issuance of a yearly Apiary permit showing proof of owner ship.

Mr. Ferero has his own apiary location within Bee Mountain which carries a yearly fee and he also maintains a service contract in which a beekeeping technician manages the colonies on his behalf.

I am aware of the research and development work and his effort towards “Wellness products”

Mr Ferero has been looking to secure some supply chains for his wellness products while in Jamaica. These activities are Mr. Ferero private business venture which are outside the scope of Bee Mountain.

If there are any questions pertaining to Mr. Ferero bees located within the Lethe Apiary please make contact.

Sincerely

Andreas Sperlich

General Manager Bee Mountain Apiaries

In October 2019, Mr. Norwin Ferero, was requested, by Mr. Andreas Sperlich, to attend a day of training in Apiaries, at the Ministry of Agriculture, Apiatry division, in Montego Bay, Jamaica.

A professional periodic maintenance guarantees the life of the bee colony.

Mr. Norwin Ferero asked Mr. Andreas Sperlich to train someone in Apiatry to do maintenance on his colonies. After the training, the beekeeping technician receives a contract for the periodic maintenance of the colonies.

Miss Shanice, applied to be trained as a beekeeping technician, and to maintain Norwin Ferero's colonies periodically.

Job applicant Miss Shanice

Miss Shanice ready for the beekeeping technician test

Miss Shanice first Apiatry try out

Miss Shanice passed the first test in Apiatry and Mr. Norwin Ferero entered into an agreement with the future beekeeping technician. Miss Shanice is motivated and will receive the maintenance contract from Norwin Ferero.

Miss Shanice is now in full training as a beekeeping technician. Mr. Andreas Sperlich giving her a training, and she will become a profesional Beekeeper. Miss Shanice has an agreement with Mr. Norwin Ferero, to do maintenance service to 10 colonies.
